

Information on CCTV Surveillance.

Varner AS uses CCTV surveillance at Varner AS facilities. Here you can find information about who is responsible for the surveillance, how and why it is carried out, how long the recordings are stored, and what rights you have. This information may be updated from time to time.

Last updated: 2026-07-08

1. Data Controller

Varner AS, Org. No. 979 490 674, Nesøyveien 4, 1376 Billingstad, is responsible for the processing of your personal data in connection with the CCTV surveillance. You can contact us at:

Email: gdpr.cctv@varner.com

Postal address: Varner AS, Nesøyveien 4, 1376 Billingstad

2. Description of the CCTV Surveillance

CCTV surveillance operates 24 hours a day. We process video recordings only – no audio is recorded. Cameras are installed on the building façade and cover areas such as entrances, building façade, and common areas. Cameras are never directed towards staff rooms, toilets, adjacent streets, or other places where individuals have a legitimate expectation of undisturbed privacy. The surveillance is clearly marked throughout the area.

3. Purpose of the Processing

We use CCTV surveillance to prevent and investigate criminal offences and damage, as well as to protect the safety of employees and visitors.

4. Legal Basis

The processing is based on a balancing of interests. Our legitimate interest is to protect employees, customers, and property against criminal offences and to be able to investigate incidents that have occurred.

5. Recipients of Personal Data

Surveillance recordings may be shared with the following categories of recipients:

- (a) law enforcement authorities, such as the police, in connection with the reporting or investigation of criminal offences;
- (b) insurance companies in connection with claims handling;
- (c) other companies within the Varner Group; and
- (d) providers of security services.

6. Transfers to Third Countries

The material is not transferred to any country outside the EU/EEA.

7. Retention Period

Recordings are stored for a maximum of 7 days from the time of recording and are then automatically overwritten. Individual sequences are retained for longer only if they are needed as a basis for a police report, an insurance claim, or an ongoing investigation, or if it is otherwise necessary to establish, exercise, or defend legal claims. Such sequences are retained only for as long as necessary for the specific purpose and are then deleted.

8. Automated Decision-Making

CCTV surveillance does not involve automated decision-making, profiling, or facial recognition.

9. Your Rights

You have the following rights in connection with the processing. To exercise any of these rights, please contact us using the contact details in Section 1. Please specify the address, date, and approximate time to which your request relates. We may need to verify your identity and will respond without undue delay, and no later than within one month.

9.1 Access

You have the right to obtain confirmation as to whether we process personal data concerning you and, if so, to access that data.

9.2 Correction

You have the right to have inaccurate or incomplete data corrected or supplemented.

9.3 Deletion

Under certain circumstances, you have the right to have your personal data erased, for example if the data is no longer necessary for the purpose.

9.4 Restriction

Under certain circumstances, you have the right to request that the processing be restricted, for example while we assess an objection or a request for rectification.

9.5 Objection

As the processing is based on a balancing of interests, you have the right to object to the processing on grounds relating to your particular situation. If you object, we may only continue the processing if we can demonstrate compelling legitimate grounds that override your interests, or if the processing is necessary to establish, exercise, or defend legal claims.

9.6 Complaint

If you believe that Varner AS's processing of your personal data violates data protection legislation, please contact us at privacy@varner.com. You also have the right to lodge a complaint with the Norwegian Data Protection Authority (Datatilsynet). Updated information on how to proceed can be found on the Datatilsynet website: <https://www.datatilsynet.no/>
